ARTICLE 1 > Organisation

Euroforest is a trademark belonging to the association of the same name created by Aproxalbois (« Interprofession de la forêt et du bois en Bourgogne ») and CFBL (Cooperative Forestière Bourgogne Limousin).

The show's marketing is handled by PROFIELD EVENTS - Tel 33(0) 385 730 573 - Fax 33(0) 385 801 082 - 36, Bd H P Schneider, BP 66, 71202 Le Creusot cedex, France - email : info@profield-events.com.

The show's organisation is managed by Euroforest: Contact : Richard LACHEZE, Director - Tel + 33 (0)680 477 816 - email : richard.lacheze@euroforest.fr. Euroforest 2010 will take place on Thursday 17 June (9H/18H), Friday 18 June (9H/20H) and Saturday 19 June 2010 (9H/19H) on the Chaumont site where Euroforest 2003 and 2006 were held. The circuit has been improved since these last two shows.

ARTICLE 2 > Conditions to be met to exhibit at Euroforest

1. Supplier status

Each exhibitor can use the services of his local distributor provided that the distributor represents the trademark and is not under dealership.

All equipment and services shown at the Euroforest show must have a direct link with the activities of the forest-wood sector.

The Euroforest organisation will accept or reject admissions without having to justify its decisions. The rejection of a registration application by the organising committee does not give rise to compensation for damages and interests, only the sums paid for participation costs will be reimbursed excluding an administrative fee that Euroforest has the right to retain.

2 Submission of the registration application

This should be completed, signed and bear the exhibitor company's stamp and returned by **31 March 2010** to Profield events, Euroforest, 36 Bd H P Schneider, BP 66, 71202 Le Creusot cedex, France, together with the corresponding payment.

The registration will only be final after examination and acceptance of the request by the Euroforest organising committee who can reject any request without having to justify its decision.

The registration will only be final once the total amount relating to the registration and services requested by the exhibitor has been cashed.

The amount relating to the registration is retained by the organisation as soon as it has been cashed.

In the event that fire, storm, war, public catastrophe, pandemic, or case of "force majeure", make it impossible for the Euroforest show to take place, the Euroforest organising committee can cancel the stand space requests already confirmed, at any time, by advising the exhibitors in writing, the latter having no right to any compensation or indemnity. The funds remaining after payment of all committed expenditure, shall be shared amongst the exhibitors pro rata to the amounts paid, without the exhibitors, by express agreement, having any right to make a claim, under any title or cause whatsoever, against the organising committee.

ARTICLE 3 > Registration - settlement - cancellation

For registrations before 10 February 2010.

The settlement of registration charges and services relating to participation may be made in three instalments :

- 30% of the total amount at the time of registration. This payment secures the stand location. It will be reimbursed if the applicant is not accepted as an exhibitor but will be retained by the organiser if the applicant cancels his participation in Euroforest.
- 50% by 10 March 2010 at the latest.
- Balance of the invoice by 10 April 2010 at the latest.
- In the case of payment after the due dates: the organiser retains the right to rent the booked stand location to other exhibitors.

For registrations after 10 February 2010

Full and entire settlement must be made at the time of registration.

In the case of cancellation, the amount of the invoice is due by way of damages and interests, even if the stand location is rented thereafter to another exhibitor.

For all registrations after 31 March 2010

A surcharge of 15% will be invoiced.

Sub-letting, even without charge, of all or part of the space booked is strictly forbidden. Consequently an exhibitor can only show products or distribute documents related to his business.

ARTICLE 4 > Exhibitor communications

During the Euroforest show, the exhibitor can promote his products via documents, posters, panels and banners within the perimeter of his exhibition space.

Outside the exhibitor's exhibition space and within the perimeter of the Euroforest site, any distribution of documents must be contractually agreed with the organisers and subject to the payment of a fee. (See options on the registration form, please contact us to discuss any other requests).

ARTICLE 5 > Safety

The exhibitor is responsible for the safety of his staff and visitors during his demonstrations. He should therefore take all necessary measures in this respect and take out an insurance contract covering the risks of demonstrations in a public place.

All demonstrations should be carried out in compliance with forestry work safety rules at all time, and the health & safety personnel made available to Euroforest can, at any time, stop demonstrations or expel persons whose behaviour is considered dangerous.

Security

All routes suitable for motor vehicles leading to the site are barred by barriers.

The organising committee has set up a security service outside opening hours, from Wednesday 16 June 20H until Monday 21 June 8H. No access to, or departure from, the site by any vehicle will be permitted during opening hours.

ARTICLE 6 > Forest protection

The lighting of fires is strictly forbidden.

Exhibitors must make all arrangements to ensure that

the surrounding forest environment is fully protected. Demonstrations of forestry extraction material must be carried out in compliance with the general clauses set out in the CFBL sales registers and available from the organising committee. In case of damage to standing trees : any tree not marked for abandon that is extracted or damaged will give rise to a compensation payment to the forest's owner, equal to Eur 100 per tree.

ARTICLE 7 > Insurance

Euroforest has taken out organiser's liability insurance. Any accidental damages or deterioration to exhibitors' property for which the organiser is liable (set up/break down) are covered by said insurance.

Exhibitors must also take out liability insurance for third party, fire and theft for their material. Euroforest accepts no liability for these risks. Should an incident occur, the exhibitor declares that he will not make any claim against Euroforest.

Exclusions from guarantees :

Displayed goods left unattended during the show's opening hours and during set up and break down days; vehicles requiring their own insurance; damages caused by natural catastrophes.

Incidents :

Should an incident, of whatever nature, occur, the exhibitor must immediately inform the Euroforest organising committee and confirm his declaration within 24 hours by recommended letter with proof of receipt. In the case of theft, the exhibitor must also file a complaint at the Saint Bonnet de Joux police station ("gendarmerie") within 12 hours and forward the complaint receipt to the Euroforest organising committee within 24 hours. The organiser declines any liability for incidents where declarations are not made according to the procedure outlined above and for any incidents arising.

ARTICLE 8 > Exhibitor Setup

Any material requiring a fork lift or manoscopic truck for unloading must be delivered to the site on Monday 14 June 2010 or Tuesday 15 June 2010 between 9H and 18H. Large rolling stock must also arrive during these two days, engine carriers will be unloaded in specially prepared areas near the site and will use the access routes indicated by the organising committee in order to reach their stand.

Euroforest will provide no handling on Wednesday 16th June 2010, the day reserved for the set up of small equipment and material.

On this same day, access to the site by heavy vehicles is not permitted and parking in the avenues is banned to enable free circulation.

Exhibitors using one or several tents of over 18M2 and not ordered from Euroforest, must supply the extract from the safety register at least 8 days before the show opening and the erection certificate by Friday 11 June at the latest.

The preparation of the stands must be completed by Wednesday 16 June at 20H00.

Break down cannot begin before Saturday 19 June 18H00. Exhibitor vehicles cannot circulate on the avenues until after complete evacuation of all visitors.
