

41.898 visitors and a successful 7th edition

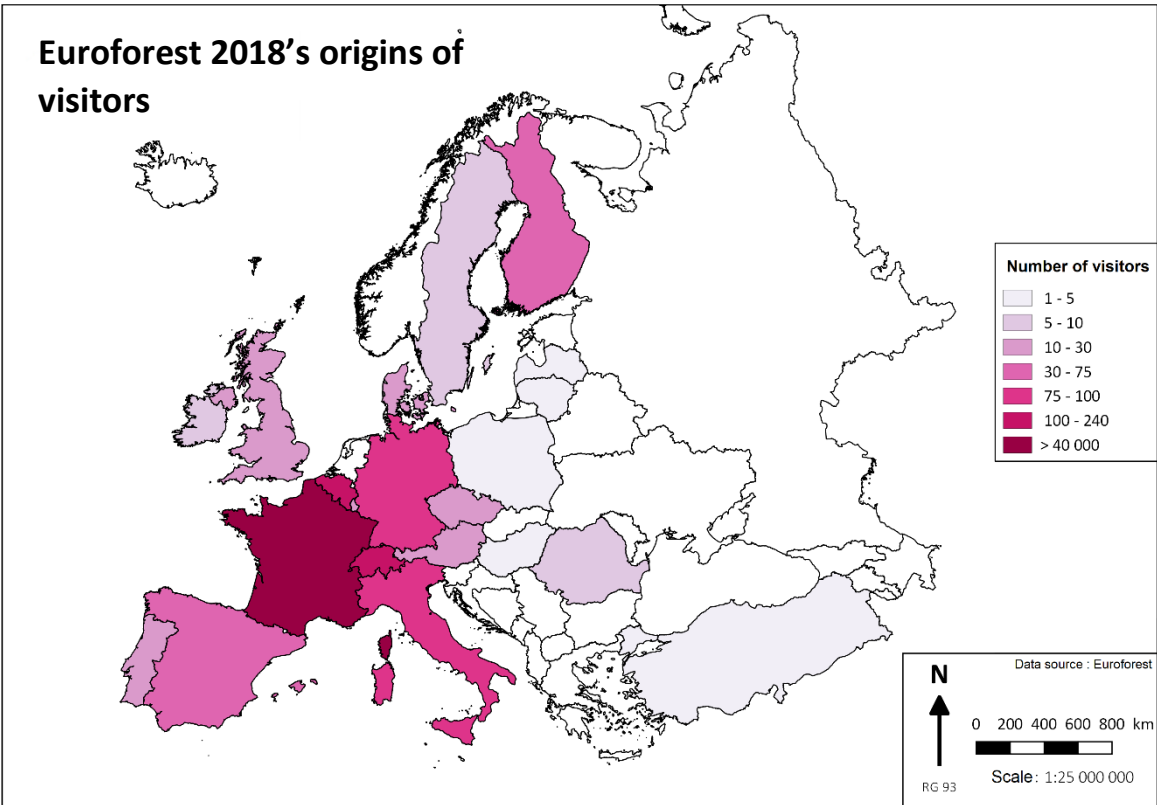

This new 2018 edition established Euroforest as the irreplaceable event for the forest-wood sector. Its exceptional setting, its central geographic location, its many animations and full-scale demonstrations won over French and international visitors and exhibitors. This incomparable business meeting ended with a remarkable result: 41.898 visitors, a high exhibitors satisfaction and a high-quality of visitorship, which keeps on increasing.

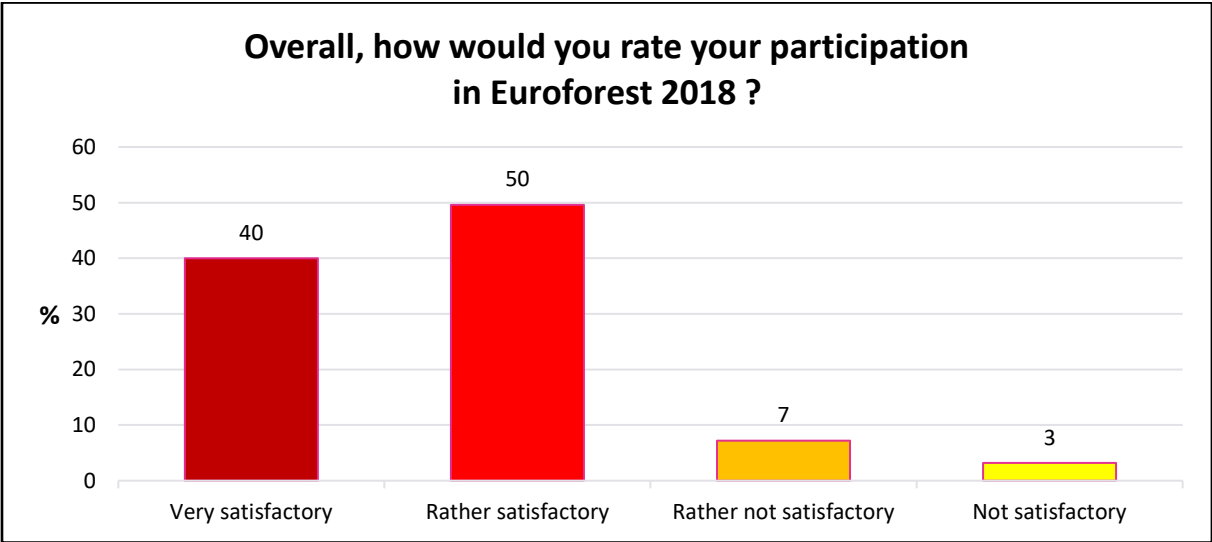

Euroforest 2018's figures

- **7th** edition
- **3** days of exhibition
- **369** companies exhibiting, including **80** foreign companies
- **550** brands represented
- **41.898** visitors, including **2.904** foreigners
- **3rd**-leading trade-show in Europe
- Next edition in **2022**

During the three days of exhibition (21 to 23 June 2018), under a radiant sun, in the heart of a beautiful forest in Saint-Bonnet-de-Joux (France), professional visitors discovered the many facets of forestry and logging, through a very wide range of materials and demonstrations. This quality clientele was curious to know the latest innovations, eager to test the real qualities of machines and make business. In total 2.904 visitors came from abroad to discover the fair, which confirms Euroforest's international reputation.

At the end of the show, the majority of the 369 exhibitors (550 brands represented) were satisfied.

Euroforest has developed an international dimension. In recent years, the organizers have multiplied exchanges with other countries to enhance the forest-wood lounge in the wild and the French forest-wood sector abroad.
